Enterprise Hardware

Frontier Computer Corp. is the worldwide resource for IT professionals. Our 37,000 sq. ft. warehouse holds more than 100,000 new and refurbished servers, drives and networking products, as well as EOL and hard to find parts. All hardware shipped from our technical center undergoes rigorous testing and has passed certification.

Maintenance

Since we work every day with a range of products from multiple vendors, Frontier has exactly the expert service technicians you need to keep your systems up and running. We can create custom maintenance plans for a fraction of OEM costs.

CyberSecurity

Frontier helps manage your Cyber-Security program, respond to incidents, and reduce risk of a breach. We offer:

- Vulnerability Assessments
- Penetration Testing
- Security Advisory Services
- Continuous Threat Monitoring
- Social Engineering protection
- Security Awareness training

SD-WAN and Connectivity

Frontier is the world's largest distributor for Peplink & Pepwave SD-WAN Products. We also offer:

- Axxess Marine & Poynting Antennas
- WilsonPro & weBoost signal amplifiers
- Grandstream & Yealink VoIP Phones
- We.Stream Secure Wi-fi Hotspots

We provide cellular data from AT&T, Sprint, T-Mobile, and Verizon.
